L50 Toxicity Prediction Model

THIS IS MY END TO END PROJECT

Executed Successfully

Internship Project

Welcome to my internship project, where I've been learning and working on Data Science and cloud tools. I'm enjoying my time, and I'm excited to share my progress with you.

Prediction page

This will ask for User Inputs for 6 mandatory chemical input values , to be entered into 6 entry widgets.

LC50 Value

CIC0 | SM1_Dz(Z) | GATS1i | NdsCH | NdssC | MLOGP

CIC0
SM1_Dz(Z)
GATS1i
NdsCH
NdssC
MLOGP
Predict

Result page

After filling the entry in chemical column and then clicking on predict we will get the result

Result

4.84
